

Silas Vasconcelos Cruz

Full Stack Developer | Java & Systems Modernization

svasconceloscruz7@gmail.com | +55 (47) 99691-9951 | [LinkedIn](#) | [GitHub](#)

Professional Summary

Full-stack developer with experience in high-volume enterprise systems (over 1 million records). Technical lead in the modernization of a legacy Java EE 6/7 system to /8 and from javax to Jakarta EE 10 / JDK 17+, keeping production running, and responsible for building a modern service layer in NestJS and Angular.

Professional Experience

CREA-PI — Technology and Information Security Advisor

05/2024 – Present

CREA-PI – Teresina, Brazil

- Technical lead for the migration of an enterprise system (~250k lines, 2,300+ classes) from Java EE 8/GlassFish to Jakarta EE 10 / JDK 17, keeping the transactional system in production.
- Built a modern service layer in NestJS and Angular dashboards integrated with the Java transactional core.
- Implemented a financial module with PIX: dynamic QR Code generation and a bank confirmation webhook with signature validation (HMAC) and idempotency.
- Requirements gathering, security analysis, vulnerability assessment and mitigation.
- Process automation and high-volume data-loading routines using Shell Script.

Technologies: Java(x) EE / Jakarta EE 10, JDK 17, Payara/GlassFish, JSF (PrimeFaces), Hibernate, NestJS, Angular, PostgreSQL, Shell Script, Linux.

EDM Software

05/2022 – 09/2022

Java Full Stack Developer – Florianópolis, Brazil

- Development, maintenance, and bug resolution across Java full stack systems.
- Handling internal support tickets and implementing improvements.
- Integration with web services (SOAP/REST) and fiscal documents (NF-e, NFC-e).

Technologies: Java 7/8, JSF (PrimeFaces), JavaScript, JPA, Hibernate, Tomcat, SQL, Web Services (SOAP/REST), NF-e/NFC-e.

Technical Skills

Languages: Java (6+), Python, JavaScript, TypeScript, C, SQL.

Development: Spring Boot, NestJS, Node.js, Angular, JSF, HTML5, CSS, Bootstrap.

Architecture & Concepts: SOA, Microservices, RESTful APIs, SOAP/WSDL integration, idempotency, messaging, clean code

Databases: PostgreSQL, MongoDB.

Tools: Git, SVN, Docker, Kubernetes, CI/CD, AWS.

Data & ML: Pandas, NumPy, TensorFlow, Scikit-learn, Matplotlib.

Education

Estácio — Computer Engineering

08/2026 – 12/202x

Federal Institute of Santa Catarina (IFSC)

2016 – 2021

Web Programming (200h), OOP in Java (100h), Linux Network Configuration (60h), Support & Maintenance (72h), Intro to Programming (80h).

Languages

English: Intermediate (reading), Basic (writing). Portuguese: Native.
